

## **Anjana FONAI Scholarship Twelve Month Report. March 2017.**

**Anjana is 17 years old & is currently completing her final year of school, year 12, with the support of many FONAI sponsors. She will complete her studies in June 2017.**

I am Anjana. I study in grade 12. I am so proud to hold this opportunity to be in touch with you (FONAI FAMILY). I am the luckiest girl who has experienced more different things & is

able to get around large groups of people. I had no idea about how I would spend my years without my parents' leadership. Until I was 4, I was a child who was not concerned about food, shelter, & clothing. I saw my mom & dad when I was 2 & 3 but that wasn't long. My mom died when I was small & I made my way to Kathmanu with my grandma to the orphanage. When I came to Kathmandu, I was far from my family's details or information & my grandma only came to meet me once a year from a great distance. She stopped visiting after a few years.

I then lived in the orphanage with Mother Rajan. She was so strict in her looks that I couldn't share my opinion & was always frightened. So most of the time I spent my days with my lovely friends at orphanage. All of boys, girls & small brothers & sisters were an inspiration & always worried about the mistakes I made, gave suggestions for betterment & helped me in each problem. Sometimes, they hid my mistakes from the elders & from this we are still in a good brotherhood relations. We never thought about the downfall of each other. These are really good things to be proud of now we are on our own way & busy in our own life & study.

FONAI has played a great role in re-unification & has helped us to step forward to good way. When we are in dilemma, FONAI is always there to give a right decision. FONAI is more concerned with our interests rather than their efforts to fundraise & help us. We were unknown about those efforts to make our study possible but now in this time, we have come to realize that you all are so much caring & loving parents that we see lacking in other people's lives. When we hear feedback from our friends about their parents' role we realize FONAI's effort & your work for our betterment & are never unsatisfied. After we get you in our life we are leading a comfortable & new life which we used to dream about, but never thought it would be in our life. This is really amazing that it came as real. Manju & I, we still talk to each other that it is real.

We were unknown about the information that is running in/outside the country. Wherever, we lose our confidence there is always a supporting family who inspire us to turnout the failure to success which will lead to good family relations, I know. I can never forget this support, love, care & affection from you all. I am glad to be part of family with this collection of good people.

Holding your hands & following your lead, I have now planned to make my further study in fashion design which is my favourite dream & a field I am interested in. I am never tired of thinking about designs & highlighting my own fashion. I don't know what people think of me but I am really interested in this field & want to bring a positive change in world with new fashion & new concepts. I hope to get you all beside me to provide me an inspiration when I lose my hope, suggestions when I make mistakes, & show me the right path when I try to make my own way to wrong path.

Thankyou so much FONAI for your kindness & your participation in developing my bright future & leading me to good fortune. If there were no you, I wouldn't be able to reach to this stage. & now, I am experiencing different life that is the dream of many Nepalese in Nepal. I collect this inspiration from you which I will show in real to other people. I will also always help those children in need who can change their lives with my small help. The main thing is that, keep smiling wherever you are, whatever you are & which situation you are with. This will take you to positive thinking & positive thinking takes you to successful life.....

**THANK YOU FONAI FAMILY YOUR LOVELY Daughter Anjana.**
