Our mission

Our mission is to provide access to senior and post secondary education to marginalised, socially and economically disadvantaged Nepali youth who otherwise would not have the financial means to fulfil their educational goals.

FONAI views higher education as a catalyst, an agent of change for individuals, families and communities.

To succeed in our mission we:

- Promote and provide financial support for senior and post secondary education via an education scholarship program (FESSHIP)
- Assure that students have all the information and support necessary to make sound educational and financial decisions about their futures
- Lead a collaborative network of educational partners aligned to support student selection, preparation, transition and persistence to course completion.

Statement of Ethical Principles

Friends of Nepal-Adelaide Inc is committed to:

- Removing financial barriers for severely disadvantaged Nepalese to access education.
- Prioritising funding allocation so it goes where it is most needed.
- Being aware of the issues affecting students and advocating for their interests, particularly girls.
- Supporting efforts to encourage all students, to aspire to and plan for education beyond high school.
- Respecting the dignity and protecting the privacy of students, and ensuring the confidentiality of student records and personal circumstances.
- The highest level of ethical behaviour and professionalism.
- Respectful collaboration with our key stakeholders.
- Conducting annual reviews of all programs to ensure the best outcomes for students.

Our History

'Friends of Nepal- Adelaide Inc. '(FONAI) is a registered Australian charity. We began our scholarship program in 2013, following a visit to Nepal & seeing first hand how disadvantage of birth is perpetuated by lack of educational opportunities.

We are a volunteer-run registered Australian charity with the goal of supporting marginalised and vulnerable Nepalese undertake education and/or vocational training to improve their socio/economic position. We obtained registered charity status in May 2016.

In 2017/18 we partnered with Mission to Modern Social Development in Nepal to manage the program.

In 2017/18 we partnered with NGO Canopy Nepal to manage the program.

We work closely with the local and International Rotary movement and other service organisations well as our International supporters, the Children's Future Fund in Germany, Canopy Nepal & The Children's Development Society, Nepal, to achieve this goal.

We support two key programs, an education scholarship program for underprivileged youth, Friends of Nepal Education Scholarship Program (FESSHIP) & disburse funding for a Social Empowerment through Education Program (SEEP) with the Child Development Society. (CDS)

Education in Nepal - Background to FONAI's work.

In Nepal, the official primary school age is 5 to 9 years. The official secondary school age is 10 to 16 years. Less than half of all Nepali children continue their education at the secondary level.

The link between poverty and school attendance at the secondary level of the education system is even stronger than at the primary level.

Nepal is a country with historically large gender disparities in school attendance, where girls were much less likely than boys to receive a formal education.

Formal school education officially spans a period of 12 years, at the successful completion of which a student graduates with a certificate of Higher Secondary Education. (HSE)

Official government policy is for free education to year 12, but the reality is that Year 10 remains the highest level of education for most Nepalese people.

Students who wish to continue higher education, years 11 & 12, mostly must attend private schools which are expensive and out of reach of most of the students in the program.

FONAI's decision to focus funding support for HSE & above requires a long term commitment from our group & our donors.

Our graduates often require short term help as they enter unpaid internships to complete course requirements. It requires us to limit the number of scholarships we can sustain as students may require support for up to 5 years.

Without our support, these young people would not be able to continue their studies & would face uncertain futures. A FONAI education scholarship is a life changing opportunity.

Who Benefits from FONAI's Activities?

Our students come significantly socially & economically deprived families & are recommended to our management team from diverse sources. Stringent screening is applied to all applicants & our team prioritises funding according to need. It is expected that families will contribute to costs based on their level of income & ability to do so.

How They Benefit.

Students benefit because they are able to achieve higher levels of education which provides access to jobs and financial independence. They will break the cycle of poverty of their birth and/or caste.

The students are able to focus on their education studies as they, and their families, do not have to worry about living or course costs for the duration of their scholarships and courses of study.

Students benefit from uninterrupted study as scholarships are provided for the duration of the course, unless scholarship terms and conditions are not met.

Institutions benefit as student fees are guaranteed.

What similar services are currently available?

FONAI has not identified similar services to the Educational Scholarship Program which focuses on HSE education & above.

There are educational scholarship programs which assist students currently living in Institutions, (Children's Homes and/or Orphanages) & others which assist students who live at home to pursue study post 10.

What is the Unfulfilled Need?

Education challenges largely relate to poverty in Nepal.

Nepal is one of the poorest countries in the world. The UN estimates that 40% of Nepalis live in poverty. Food insecurity, poor housing, low soil quality, low literacy, natural disasters, and ethnic discrimination plague the Nepalese people.

Nepal is highly dependent on foreign aid and assistance from NGOs.

Ongoing NGO projects include energy access, skills development, environmental protection, infrastructure, clean water, and education.

CHAIRPERSON'S REPORT - 2018/19 Financial Year

Friends of Nepal- Adelaide Inc (FONAI) is volunteer-run registered Australian charity with the goal of supporting marginalised and vulnerable Nepalese undertake education and/or vocational training to improve their socio/economic position.

We work closely with the local and International Rotary movement and other service organisations well as our International supporters, the Children's Future Fund in Germany, Canopy Nepal & The Children's Development Society, Nepal, to achieve this goal.

We support two key programs, an education scholarship program for underprivileged youth, Friends of Nepal Education Scholarship Program (FESSHIP) & disburse funding for a Social Empowerment through Education Program (SEEP) with the Child Development Society. (CDS)

FESSHIP Program Overview

Our 2018/19 FESSHIP program was managed in partnership with NGO Canopy Nepal. The young team quickly appointed a project manager, Deekshak Bhattarai, & new agreements with all scholars were signed in July 2018.

We welcomed new scholar, Shrinkhala, to begin Year 11 at Noble College & farewelled old scholar & hospitality studies graduate Bhanu, assisting him with room set up as he began his hospitality career.

Deekshak has proven to be a diligent & responsible manager, submitting comprehensive monthly financial & narrative reports & responding quickly to our many requests.

In May 2019, internship student, Anjali, joined the team to assist Deekshak with his work.

The student monthly meetings have been well attended & our team has worked hard to build a FESSHIP family for our scholars. The team quickly identified the need for a holistic approach to it's management of the program & formalised a workshop program to develop vocational, wellness & mentoring skills.

This program has been very well received by the students & will be expanded in 2019/20. Birthday celebrations, sports days & other fun times have also been added to the monthly meeting schedule, along with a variety of programs including IT, first aid & cyber safety.

During committee member Lynne Rawson's visit in March 2019 the students enjoyed ten pin bowling & a pizza dinner.

There have been the usual highs & lows associated with any work in an underdeveloped country, but with the support of the great Canopy team we have worked through most of them successfully.

Friends of Nepal Adelaide Inc. Annual Report

FESSHIP Student Report.

We are slowly addressing the gender balance within the program whilst making sure that existing students are not negatively impacted by our focus on supporting girls.

The ratio is 3 girls to 6 boys so we have a way to go. We only offered one new scholarship to a young girl Shrinkhala, to complete Year 11 at Noble College.

Shrinkhala is fortunate to be able to live with her family, so her scholarship was for course fees only. Shrinkhala completed Year 11 successfully & has now started Year 12 on a FESSHIP scholarship.

Manju successfully completed Year 2 of her law studies at Kathmandu School of Law & is currently completing her third year. She represented her university at two MOOT court events, sponsored by our German partners & a Spanish donor.

Manju's FESSHIP scholarship was for living costs only & in June 2019, her Spanish donor decided to fund her living costs as well, & Manju left the scholarship program at the end of the financial year. We maintain regular contact with Manju & will monitor her progress as she completes her studies in 2021. We are proud that we were able to give this clever young woman support for the past three years & will continue to celebrate her achievements.

Anjana began her Bachelor in Fashion Design in January 2019 & continues to do well. She has been awarded upcoming designer & has featured in many competitions during her first year of studies. She will finish her first year in October 2019.

Two of our oldest scholars began their final year of studies as FESSHIP students. Sanjeev completed his Bachelor of Information Technology & is awaiting his results. Bishal also completed his second year of accounting studies & is also waiting his results. Both young men have worked part time as teachers, in call centres & as sports instructors, to support their own living costs. Like Manju & Anjana, their scholarships have been supported by the Children's Future Fund in Germany, who pay all course fees. We are waiting to hear of their future plans.

Three of our students completed their final high school studies in May 2019. Hem, Prachandra & Bijay are all waiting for their results & all started vocational scholarships in June 2019 to prepare them for future study & financial independence. Hem is studying a 3 month medical preparatory course as he wants work in the medical field,

Prachandra is studying a university preparation course, & Bijay, who did not want to pursue a Bachelor's degree, has begun hospitality studies. Sushant has begun his Year 10, an important year in Nepali education, as it determines his future path. If successful he will achieve Senior Education Certificate & be eligible to study years 11 & 12.

Student Reporting.

Annual written reports were received from students as per scholarship agreements.

Vocational Scholarships

In April 2019 we began exploring vocational scholarship opportunities. We believed that skill based training would better equip our students to find work to contribute to their education costs. In Nepal, Deekshak developed a list of approved providers for courses graduating students can undertake while they wait for results. He interviewed eligible students to identify interests. In Australia, we searched for donors, this fulfilling one of our annual goals, to secure corporate sponsorship!

As a result of this combined effort, we were able to offer 3 vocational training scholarships in May/June 2019 for the 3 boys waiting for Year 12 results - a 3 month wait!

We were proud to welcome 2 new donors as a result of this effort.

The Rotary Club of Lindisfarne - a cooking & a foundation skills training scholarship &, Seaside Dental – medical preparation scholarship. The Rotary Club of Lindisfarne also decided to fund a FESSHIP scholar in our 2019/20 program.

FESSHIP Management Report.

FESSHIP management team submitted all required monthly, quarterly & annual reporting requirements as per partnership agreement.

8/ 9 students successfully completed the requirements of their courses.

Partnership Agreement - Child Development Society-Nepal

Facilitating funding for Self Employment through Education (SEEP) program

Our partnership with the Child Development Society in Nepal was extended in 2018/19 & two more SEEP groups began in Kavre district in October 2018. Up to 30 individual marginalised women are currently receiving education & employment training to enable them to financially support their families & send their children to school instead of work in the brick kilns.

Lynne Rawson visited this program and many others managed by CDS in & was again impressed with the implementation & management of it & the benefits it has in the poorest communities.

We were also very proud to be signatures to the recent RAWCS project # established by tireless humanitarian Malcolm Lindquist to support the SEEP program. Another proud moment for us.

Friends of Nepal Adelaide Inc. Annual Report

SEEP Program Report.

CDS SEEP management team submitted reporting requirements for SEEP program.

(FONAI), Australia & Children's Future Fund (CFF), Germany for 9 students who are currently completing high school, senior high school or post-secondary studies.

The main objective of FESSHIP is to support marginalized and socially & financially disadvantaged Nepalese students to complete higher education courses which would otherwise be denied to them. The target group of FESSHIP are the students who are socially & economically disadvantaged and lack family support.

The program is targeted for the students of the age group 15-20 years and is being implemented in Kathmandu, Nepal and the first year started from July 1, 2018, and continued till June 30, 2019.

Significant Events in the Program

Funding Methods

The main methods used by FONAI to raise funds are sponsorships, donations and fundraising events.

During the year we held two movie fundraising events, our annual Gala dinner, annual fundraising stalls at Blackwood Rotary Fair & Montessori Children's Centre Twilight picnic & added monthly stall at a local farmer's market.

Volunteer Base

FONAI is building its volunteer base with five- ten regular volunteers currently helping in various tasks and events and general support.

All members of the Management Committee also volunteer their time to set strategy, attend meetings, raise funds, networking, develop policies and procedures and provide stewardship of the organisation.

Our auditor also volunteers his time to scrutinise our financial statements.

A.G.M. TREASURER'S REPORT - 3RD OCTOBER 2019

Income 2018-19

FONAI total income for last financial year
Total income – down 4.75%
Donations - down 22.4%
Sponsorship - up 26%
Fundraising - down 28% (over \$8,000 from gala dinner)

Student Expenses

11% less than 2018-2019
Living and Expenses were 67%
Course fees (education) 32%
Medical 1%

As in previous years FONAI'S administration costs have been kept to minimum with only ongoing expenses are insurance, website and facebook presence and banks fees for international transfers. Now that we have changed from an ANZ EFPTOS machine to The Square there are only fees when the Square is used.

Sponsorship

Sponsorship has increased last financial year and that is mainly due to Rotary Club of Lindisfarne where founding member of FONAI Margaret Congram and is now a club director. We also need to acknowledge the continued support of Rotary Clubs of Blackwood, Brownhill Creek and Mobilong. Seaside Dental is also supporting one of our students.

Fundraising

The last financial year has seen us selling items at local markets which included jams/chutneys from Hilary Flynn, marmalade from Jan Arnold and Nepali items. We were also present at the Rotary District Conference which was held in Broken Hill. One of our new supporters is Cheryl Fleming who sells books on our behalf at Goolwa markets and we can't forget items at the front door of 23 Centre Way, Belair. Overall fundraising has decreased this year and I believe this is a sign of our economy – it is increasingly difficult to raise funds for charity and there is such a lot of competition. Well done to our Fundraising Chairperson Lynne for 'Putting us out there'.

Thank you again to my Quickbook advisor Ken and to Philip for auditing our books again this year.

Notes to the Financial Statements

1 General information and statement of compliance

The financial report includes the financial statements and notes of Friends of Nepal — Adelaide Inc.

These financial statements are general purpose financial statements that have been prepared in accordance with Australian Accounting Standards — Reduced Disclosure Requirements and the Australian Charities and Not-forprofits Commission Act 2012. Friends of Nepal — Adelaide Inc. is a not-for-profit entity for the purpose of preparing the financial statements.

The consolidated financial statements for the year ended 30 June 2019 were approved and authorised for issue by the Board of Responsible Entities on 30 September 2019.

2 Changes in accounting policies

There have been no significant changes to accounting policies. There have been some minor changes to the classification of several income and expense items.

3 Summary of accounting policies

3.1 Overall considerations

The significant accounting policies that have been used in the preparation of these financial statements are summarised below.

The financial statements have been prepared using the measurement bases specified by Australian Accounting Standards for each type of asset, liability, income and expense. The measurement bases are more fully described in the accounting policies below.

3.2 Revenue

Revenue comprises revenue from the sale of goods, government grants, fundraising activities and client contributions. Revenue from major products and services is shown in Note 4.

Revenue is measured by reference to the fair value of consideration received or receivable by the Group for goods supplied and services provided, excluding sales taxes, rebates, and trade discounts.

Revenue is recognised when the amount of revenue can be measured reliably, collection is probable, the costs incurred or to be incurred can be measured reliably, and when the criteria for each of the Group's different activities have been met. Details of the activity-specific recognition criteria are described below.

Sale of goods

Revenue from the sale of goods comprises revenue earned from the sale of goods donated and purchased for resale. Sales revenue is recognised when the control of goods passes to the customer.

Client contributions

Fees charged for care or services provided to clients are recognised when the service is provided

Friends of Nepal Adelaide Inc.

Annual Report

Donations and bequests

Donations collected, including cash and goods for resale, are recognised as revenue when the Group gains control, economic benefits are probable and the amount of the donation can be measured reliably.

Bequests are recognised when the legacy is received. Revenue from legacies comprising bequests of shares or other property are recognised at fair value, being the market value of the shares or property at the date the Group becomes legally entitled to the shares or property.

Interest and dividend income

Interest income is recognised on an accrual basis using the effective interest method. Dividend income are recognised at the time the right to receive payment is established.

3.3 Operating expenses

Operating expenses are recognised in profit or loss upon utilisation of the service or at the date of their origin.

3.4 Property, plant and equipment

At this time the Association has no property, plant or equipment.

3.5 Inventories

Inventories comprises goods for resale and goods for distribution at no or nominal consideration as part of the Group's charitable activities. Inventories may be purchased or received by way of donation.

Goods for resale

Inventories of goods for resale are valued at the lower of cost and net realisable value. No value is ascribed to goods for resale that have been donated to the Group where fair value cannot be reliably determined. Net realisable value is the estimated selling price in the ordinary course of business, less any applicable selling expenses.

Goods held for distribution

Donated goods and goods purchased for nominal consideration held for distribution are initially recognised at their current replacement cost at date of acquisition. Inventories of goods purchased and held for distribution are initially recognised at costs. The cost of bringing each product to its present location and condition is determined on a first-in, first-out basis.

3.6 Income taxes

No provision for income tax has been raised as the Group is exempt from income tax under Division 50 of the Income Tax Assessment Act 1997.

3.7 Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and demand deposits, together with other short-term, highly liquid investments that are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value.

3.8 Reserves

Friends of Nepal Adelaide Inc.

Annual Report

Retained earnings include all current and prior period retained profits.

3.9 Employee benefits

The Association has no employees and there are no wage based expenses.

3.10 Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office. In these circumstances the GST is recognised as part of the cost of acquisition of the asset or as part of an item of the expense. Receivables and payables in the statement of financial position are shown inclusive of GST.

Cash flows are presented in the statement of cash flows on a gross basis, except for the GST components of investing and financing activities, which are disclosed as operating cash flows.

3.11 Economic dependence

The organisation is dependent upon the ongoing receipt of community and corporate donations to ensure the ongoing continuance of its programs. At the date of this report management has no reason to believe that this financial support will not continue.

3.12 Significant management judgement in applying accounting policies

When preparing the financial statements, management undertakes a number of judgements, estimates and assumptions about the recognition and measurement of assets, liabilities, income and expenses.

Estimation uncertainty

Information about estimates and assumptions that have the most significant effect on recognition and measurement of assets, liabilities, income and expenses is provided below. Actual results may be substantially different.

Useful lives of depreciable assets

Management reviews its estimate of the useful lives of depreciable assets at each reporting date, based on the expected utility of the assets.

Inventories

Management estimates the net realisable values of inventories, taking into account the most reliable evidence available at each reporting date. The future realisation of these inventories may be affected by future technology or other market-driven changes that may reduce future selling prices.

Dated the 30 September 2019

Independent Auditor's Report

TO THE MEMBERS OF FRIENDS OF NEPAL - ADELAIDE INC.

Report on the Audit of the Financial Report

Auditor's Opinion

We have audited the accompanying financial report of Friends of Nepal — Adelaide Inc. (the "Association") which comprises the statement of financial position as at 30 June 2019, and the statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and the statement by the Committee.

In our opinion, the financial report of Friends of Nepal — Adelaide Inc. has been prepared in accordance with the Incorporated Associations Act 1985 (SA) and Division 60 of the Australian Charities and Not-for-profits Commission Act 2012, including:

- a giving a true and fair view of the Association's financial position as at 30 June 2019 and of its financial performance for the year then ended; and
- b complying with Australian Accounting Standards and Division 60 of the Australian Charities and Not-for-profits Commission Regulation 2013.

Basis of Qualified Opinion

Cash donations are a significant Source of fundraising revenue for Friends of Nepal — Adelaide Inc. The Association has determined that it is impracticable to establish control over the collection of cash donations prior to entry into its financial records. Accordingly, as the evidence available to us regarding fundraising revenue from this source was limited, our audit procedures with respect to cash donations had to be restricted to amounts recorded in the financial records. We are therefore unable to express an opinion on whether the recorded cash donations of Friends of Nepal — Adelaide Inc. are complete.

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Report section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of the Committee of Management for the Financial Report

The Committee of Management of the Association are responsible for the preparation and fair presentation of the financial report in accordance with Australian Accounting Standards — Reduced Disclosure Requirements, the Incorporated Associations Act 1985 (SA) and the Australian Charities and Not-for-profits Commission Act 2012, and for such internal control as the Directors determine is necessary to enable the preparation of the financial report that is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the Directors are responsible for assessing the Association's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Directors either intend to liquidate the Association or to cease operations, or have no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Association's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with the Australian Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Association's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Directors.
- Conclude on the appropriateness of the Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Association's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our audit report. However, future events or conditions may cause the Association to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
