FESSHIP - Scholarship Program Update

We are currently in negotiations with our Canopy Nepal management team for the renewal of the partnership agreement which expires June 30 2022. We strongly value this relationship & the opportunity to share ideas & discuss challenges & opportunities in our video meetings now across 3 continents! Most uplifting is the dedication of all involved in making this program the best it can be!

FESSHIP Student Update

The academic year for senior high school is winding down in Nepal with most classes & examinations due to be completed in June & universities in September. Our students continue to do well as they prepare for final examinations.

Student Profile

Two students will reach major milestones in their education journeys over the next few months.

Sushant (18years) Year 12 at Sagamartha Multiple College. He will complete his Year 12 studies in June. Sushant has been a FESSHIP scholar for over 6 years & FONAI has funded all living & education expenses over this time, a big commitment & effort for our group. Sushant has no family support & thanks to donors like you, we have managed to provide consistent funding to meet all his needs, including recent medical, travel & hostel relocation expenses. We have just funded his final Year 12, 4 night 5 days tour which he would not have been able to attend without our sponsorship. We will share his report when it arrives!

Saugat (22 years) Bachelor of Developmental Finance at National College. Saugat, who is vision impaired, has recently completed his internship at Kamana Sewa Bikas Bank as part of his final year studies. Saugat has won many accolades for both his academic achievements & his volunteer work. He is an inspiration to all & we look forward to learning more about his plans after graduation. We are proud to support this fine young man.

SEEP program.

We are honoured to be a signatory, along with the Rotary Clubs of Mitcham & Dilibazaar & the Child Development Society in Nepal, to the new agreement for management of **RAWCS project, 101-2018-19: Self Employment Education Program, Child Development Society, Kathmandu, Nepal (RAOAF)**

SEEP provides 12 month basic literacy, numeracy & business management programs for illiterate & marginalised women & provides seed funding for start up enterprises to break the cycle of poverty. We have sponsored several successful SEEP programs & witnessed personally the positive outcomes, minimisation of child labour & trafficking, improved school attendance & the security which comes from consistent incomes & work. We look forward to progressing this program.
